ABOUT ME

IT professional with 4+ years in endpoint security, identity management, and firewall operations. I build my own security tools using AI to automate what others do manually — from patch management to access audits. Currently transitioning into a dedicated security role as a SOC Analyst or Security Engineer.

WORK EXPERIENCE

SurveySparrow, Chennai | Feb 2024 – Present

Associate IT Admin

★ Rising Star 2025 · Dashing Debut 2024

- **MDM Migration:** Led Hexnode → JumpCloud migration across 320 endpoints with zero downtime; integrated all apps with SSO.
- **Patch Management:** Built Installomator — automated macOS patching via JumpCloud, replacing paid Desktop Central, eliminating CVE exposure.
- **IGA & Access Reviews:** Built access review tool integrating HRMS across 60+ SaaS apps — reduced 4-week manual audit to hours.
- **Fleet Monitoring (SparrowVision):** Developed real-time device health platform tracking security posture, apps, and activity across 300 Macs.
- **SaaS Governance (SpendNest):** Built spend intelligence tool — maps costs per business unit, surfaces shadow IT via HRMS sync.
- **Firewall & DLP:** Administered FortiGate with weekly policy reviews. Leading ISO 27001-aligned DLP roadmap.

Skill Lync, Chennai | Mar 2021 – Jan 2024

Intern → Associate IT Admin

🏆 Techno Geek 2023 · Bringing It Beyond 2022

- **Google Workspace & IAM:** Set up and managed identity for 1,000+ employees across Chennai, Hyderabad, and Pune.
- **Infrastructure:** Procured custom systems for video production team; deployed Synology NAS to resolve storage challenges.
- **License Server & VPN:** Set up SoftEther VPN for remote access to Catia and SolidWorks license servers.
- **Endpoint Security:** Managed 3,040 endpoints (3,000 Win + 40 Mac) using eScan; scripted unauthorised software detection.
- **Helpdesk & IT Ops:** Built Google Forms ticketing system; expanded IT infrastructure to Hyderabad student labs.
- **Firewall:** Administered pfSense across multi-site environment with app filtering and VPN access controls.

SKILLS

- | | | |
|---------------------------|-----------------------|---------------------------|
| • SOC Operations | • SIEM & Log Analysis | • Incident Response |
| • JumpCloud MDM | • Jamf Protect (EDR) | • Jamf Trust (ZTNA) |
| • FortiGate Firewall | • pfSense Firewall | • VPN Management |
| • DLP Planning | • ISO 27001 / SOC 2 | • Access Reviews & IGA |
| • Google Workspace | • Microsoft 365 | • Asset Management |
| • Python & Bash Scripting | • Prompt Engineering | • API & Zapier Automation |

SECURITY ENGINEERING PROJECTS

SparrowVision — Real-time fleet monitoring: security posture, app inventory, asset tracking, SOC 2 / ISO 27001 compliance scoring.

Access Review Tool — HRMS-integrated IGA tool automating access audits across 60+ SaaS apps. Reduced 4-week cycle to hours.

Installomator — In-house macOS patch pipeline via JumpCloud. Replaced paid Desktop Central, real-time Slack reporting.

SpendNest — SaaS spend intelligence per business unit. Surfaces shadow IT via HRMS sync and auto-reconciliation.

App Watcher — Real-time software compliance tracker. Flags unauthorised apps with instant Slack alerts.

CERTIFICATIONS & EDUCATION

Google Cybersecurity Professional — Google / Coursera (SIEM, SOC, Python, Linux)

Network Security — Great Learning

Microsoft 365 Admin — Exam 70-346 — Microsoft

PwC Audit Job Simulation — Forage / PwC

M.Sc. Physics (IoT) — St. Joseph's College, Tiruchirappalli · 2020

HONORS & AWARDS

★ **Rising Star Award** — SurveySparrow, 2025 · AI tool development

🚀 **Dashing Debut Award** — SurveySparrow, 2024 · MDM migration

🏆 **The Techno Geek** — Skill Lync, 2023 · NAS implementation

🎯 **Bringing It Beyond** — Skill Lync, 2022 · Above & beyond performance
