

TARANI ANTONY PRABHU JK

4+ Years Experience · Chennai, India

Open to Security Roles

Security Engineer & IT Professional · SOC Analyst

+91-82483 75358 antonymariyan7@gmail.com linkedin.com/in/tarani-antony-8a2013205 Chennai, Tamil Nadu, India

IT professional with **4+ years of hands-on experience** in endpoint security, identity & access management, MDM, and firewall operations across organisations of 300–3,000 employees. Distinguishes by independently building AI-powered internal tools — replacing commercial software and automating manual security workflows. Awarded **Rising Star 2025** and **Dashing Debut 2024** at SurveySparrow for tool development and MDM migration. Actively transitioning into a dedicated **SOC Analyst / Security Engineer** role.

WORK EXPERIENCE

Associate IT Admin

SurveySparrow · Chennai, India

Feb 2024 – Present

~320 Endpoints · ~300 Mac + 20 Win

★ Rising Star 2025 · 🚀 Dashing Debut 2024

- **MDM Migration & SSO Integration:** Led full migration from Hexnode to JumpCloud across 320 endpoints with zero downtime. Integrated all company applications with SSO, eliminating credential sprawl and centralising authentication.
- **Security Policy & Compliance:** Deployed organisation-wide security policies via JumpCloud Custom Policies and Command framework — enforced automated OS update policies to reduce unpatched endpoint risk.
- **In-House Patch Management (Installomator):** Designed and built a macOS patch pipeline using JumpCloud scripting, fully replacing paid Desktop Central. Auto-updates 300 Mac endpoints with real-time Slack patch status reports.
- **Automated IGA & Access Review Tool:** Built an in-house identity governance tool integrating HRMS to automate access reviews across 60+ SaaS apps. Reduced a 4-week manual process to hours; generates SOC 2 / ISO 27001-ready audit reports.
- **Fleet Monitoring Platform (SparrowVision):** Developed a real-time device visibility platform tracking security posture, app inventory, USB/port connections, browser activity, and crash reports across 300 Macs — replacing the need for a third-party tool.
- **Developer Security Controls:** Built Bash and Windows scripts to detect unauthorised software installations and alert the security team via Slack. Complemented with Jamf Protect for EDR-level threat detection and software blocking.
- **SaaS Spend & Shadow IT (SpendNest):** Built a spend intelligence tool mapping SaaS costs per business unit via HRMS integration. Surfaces shadow IT and unused licences, enabling proactive procurement governance.
- **Firewall & DLP:** Administered FortiGate with weekly policy reviews, application filtering, VPN group management, and Slack-integrated downtime alerts. Leading the ISO 27001-aligned DLP roadmap across endpoint, identity, and SaaS layers.

Intern → Associate IT Admin

Skill Lync · Chennai, India

Mar 2021 – Jan 2024

3,040 Endpoints · 3,000 Win + 40 Mac

🏆 Techno Geek 2023 · 🌐 Bringing It Beyond 2022

- **Google Workspace & Identity Management:** Administered Google Workspace for 1,000+ employees across Chennai, Hyderabad, and Pune — user provisioning, access control, group policies, offboarding, and quarterly access reviews.
- **Endpoint Security & Asset Management:** Managed 3,040 endpoints (3,000 Windows + 40 Mac) using eScan. Built unauthorised software detection scripts and implemented a full hardware lifecycle and scrap procedure.
- **Firewall & Network Security:** Administered pfSense firewall across multiple locations with application filtering, VPN access controls, and traffic policy enforcement for real-time network security.
- **NAS & Storage Infrastructure:** Deployed Synology NAS to resolve organisation-wide storage challenges — providing centralised, scalable, and secure file storage across all teams.
- **License Server & VPN Setup:** Deployed SoftEther VPN server enabling secure remote access to Catia and SolidWorks license servers, supporting engineering teams across multiple sites.
- **IT Helpdesk & Ticketing:** Designed and launched an internal helpdesk using Google Forms with a reporting dashboard — streamlined request tracking and reduced IT response time organisation-wide.
- **Hardware Procurement:** Researched and procured custom high-performance systems for the video production team — the project that led to conversion from intern to full-time employee.

- **Multi-Site IT Operations:** Travelled to Hyderabad to set up IT infrastructure for student labs — device deployment, network configuration, and security setup on-site.

TECHNICAL SKILLS

SECURITY OPERATIONS

- SOC Operations
- SIEM & Log Analysis
- Incident Response
- Threat Monitoring
- Vulnerability Management
- DLP Planning
- Risk Assessment
- IT Audit
- Shadow IT Discovery

ENDPOINT SECURITY & MDM

- Jamf Protect (EDR)
- Jamf Trust (ZTNA)
- eScan
- MDM Policy Enforcement
- Patch Management
- macOS/Windows Hardening
- FileVault
- BitLocker

SCRIPTING & AUTOMATION

- Python
- Bash/Shell Scripting
- API Integration
- Zapier Automation
- React / TypeScript
- Supabase

IDENTITY & ACCESS MANAGEMENT

- JumpCloud
- Google Workspace Admin
- Microsoft 365
- User Provisioning
- Access Reviews
- SSO & MFA
- HRMS API Integration
- Least-Privilege Enforcement

FIREWALL & NETWORK SECURITY

- FortiGate
- pfSense
- Application Filtering
- VPN Management
- Network Segmentation
- Traffic Analysis
- Whitelist/Blacklist Policies

COMPLIANCE & GOVERNANCE

- ISO 27001
- SOC 2
- SaaS Spend Governance
- Asset Management
- Prompt Engineering
- GenAI Tool Development

SECURITY ENGINEERING PROJECTS

SparrowVision

Device Health Monitoring & Fleet Security Platform

Self-hosted, full-stack security monitoring platform providing real-time visibility into device health, security posture, and compliance across 300 Mac endpoints. Tracks FileVault, BitLocker, Firewall, SIP, Gatekeeper, MDM, and antivirus compliance. SOC 2 and ISO 27001 scoring dashboards.

- React
- TypeScript
- Supabase
- Python
- Claude AI
- Slack

Access Review Tool

Automated Identity & Access Governance

Replaced a 4-week manual IGA process with an automated pipeline pulling HRMS exit data and reconciling against active user accounts via API across 60+ SaaS tools. Generates compliance-ready audit reports in hours.

- Python
- HRMS API
- REST API
- Automation

Installomator

Automated macOS Patch Management

macOS patch pipeline deployed via JumpCloud scripting, replacing ManageEngine Desktop Central across 300 Mac endpoints. Real-time Slack notifications for patch success/failure, closing CVE exposure windows automatically.

- JumpCloud
- Shell Script
- Slack Webhooks
- macOS

SpendNest

SaaS Spend Intelligence & Shadow IT

Financial audit tool mapping SaaS subscription costs per business unit via HRMS integration. Auto-syncs on team changes, surfaces unauthorized applications, and enables security-driven procurement governance.

- Python
- API Integration
- HRMS Sync
- Automation

CERTIFICATIONS

-  **Google Cybersecurity Professional Certificate**
Google / Coursera — SOC Operations, SIEM, Chronicle, Python, Linux, Log Analysis
-  **Microsoft 365 Administration — Exam 70-346**
Microsoft — Identity Management, Cloud Security, M365 Administration
-  **Network Security Certification**
Great Learning — Network Protocol Security, Infrastructure Hardening
-  **Introduction to Cyber Security**
Great Learning — Foundational Security Concepts, Threat Landscape
-  **PwC US Audit Job Simulation**
Forage / PwC — IT Audit, Control Assessment, Risk Identification & Remediation

EDUCATION

M.Sc. Physics (IoT)

St. Joseph's College, Tiruchirappalli
Tamil Nadu · Class of 2020

LANGUAGES

- Tamil — Native
- English — Professional

HONORS & AWARDS

-  **Rising Star Award — SurveySparrow, 2025**
Awarded for independently building GenAI-powered tools that replaced commercial software and elevated security posture.

-  **Dashing Debut Award — SurveySparrow, 2024**
Recognised for leading the MDM migration from Hexnode to JumpCloud and delivering high-impact IT operations within first months.

The Techno Geek — Skill Lync, 2023

Certificate of Appreciation from CFO for the successful Synology NAS implementation ensuring maximum organisational productivity.

Bringing It Beyond — Skill Lync, 2022

Recognised for consistently delivering logical solutions, never compromising on quality, and constantly improving past work.
